HH – HOUSEHOLD INCOME

The routing in the Income section is particularly complex. Income information is gathered about the Highest Income Householder, and his or her spouse or partner. The routing will depend on who is being interviewed (HiH or partner), whether they are employed/self-employed, and the number of jobs they have. Please refer to the full I2itive CAPI script for full details.

This early portion of this section (HH1 to HH26) is asked of the highest income earner. Depending on whether they are the highest income earner or not, this may be asked of the respondent
