Released 22/07/2019

Contents

1. **Print Mandate Link is no longer downloading the mandate** 3
2. **CMA task list - documents populating on task list** 3
3. **Unable to add a debt in a single debtor case** 3

eDEN Release 1.0.6

1. Print Mandate Link is no longer downloading the mandate

The Print Lead Debtor mandate and Print Joint Debtor mandate was not downloading the mandate template from the Debtor further details page on the personal application.

The link is now working again and downloading the correct template with the correct details.

2. CMA task list - documents populating on task list

The task list 'Letters to Issue' for Continuing Money Advisers was not populating with any letters. The Letters now show in this tasklist when they have been generated for a CMA case and the creditor organisation has a preferred contact method of Post.

3. Unable to add a debt in a single debtor case

When creating a debt on a single debtor case the debtor name field was prepopulating as blank and not giving an option for the user to select the debtors name. This has now been fixed and the debtors name in a single debtor case now prepopulates to the debt.
