eDEN Release v2.2.9

1. Review Date

The review date was in the wrong format – MM-DD-YYYY instead of DD-MM-YYYY.

This is now showing in the correct format when searching for reviews as well as within the case.

2. Cases Due to Complete Task list and export

When exporting from the “Cases Due to Complete” tasklist it was showing revoked cases when it shouldn't be.

This has now been tested and when cases are revoked they remove automatically from the tasklist.
